OUR APPROACH

Specialist reach, flexible terms.

01 **Understand the opening**
The role, the team, and the experience that would make someone effective in your organization specifically.

02 **Identify relevant talent**
Drawn from our insurance relationships, our legacy database, and current market activity — not from active applicants.

03 **Evaluate before introducing**
We assess background and genuine interest, then present a clear summary for your consideration.

04 **Support the decision**
We coordinate conversations and stay close through feedback, negotiation and placement.

WHERE IT FITS

A practical way to meet proven talent.

Roles
Producers, account managers, underwriters, claims professionals, operations and other specialist positions.

No upfront fee
The fee is tied to a successful placement. Evaluate an introduction before committing to anything.

A broader view
Our existing relationships surface people well beyond whoever happens to be applying.

Through the close
Candidate context, arranged conversations, and support through the offer process.
