GROWTH OPTIONS

The people side of expansion.

We work with leaders to assess talent, preserve continuity, and bring high-performing teams into the next stage of growth.

Acquisitions

Leadership integration, talent retention and organizational design after a deal closes.

Lift-outs

Recruit an established team or business unit whose people already know how to perform together.

Fold-ins

Help an acquired group join an existing organization while protecting relationships and continuity.

Roll-ins

Support consolidation, leadership realignment, and the move into a broader platform.

HOW WE WORK

Talent strategy through change.

01 **Clarify the growth goal**

The target capability, the market opportunity, and the leadership outcome the organization is actually seeking.

02 **Evaluate the people picture**

Team strengths, leadership fit, the relationships that matter, and the talent the next stage will require.

03 **Plan the transition**

Roles, communication, retention, and how an incoming team works within the existing structure.

04 **Support integration**

We stay close to stakeholders as leadership and teams settle into the new shape.
